## **EDITORIAL**

#### ONCE AGAIN, A NORMAL PULSE

Old as the hills is the method used by medics in determining the heart-beat of a patient. Nearly as old, is the method used by educators in determining the pulse of a student body through the student press. "Your radical editor cannot, for the good of the institution, last long," states one. "But, likewise, your conservative will soon fall out of office due to student pressure," he reminds. "Consequently, a norm is always maintained which expresses the average student pulse."

Since 1916 The Gateway has in every way been indicative of the student body. But, during the last semester, we have lost, somewhat, our usual ability. The rush in becoming a city-owned university, coupled with several incoming classes of unruly Freshmen, has almost overcome our stalwart upperclassmen. School loyalty has been pounding the rocks. Our student pulse has become feverish and unsteady. Not high blood pressure at all, but Rofe. Then they ran away and sot an accident. rather a sickly diabetic, anaemic, trickle, which, if it does not married and her mother died of respond to these words, will mark the end of a long lineage of ideal followers who made this university. And The Gateway, con- lished first, our youthful populace might not be amiss. fident that any normal student body would soon rouse itself, has was fast going to the dogf. And they done nothing to awaken the sleeping beauties.

But now we strike! We're having an annual this year, mister. The first Municipal Omahan comes out soon, lady. You're gonna help put it out. You won't? Bet you will. Why? Because, now, you're awake, alive! You're ready to go! You've finally grasped on an Omaha minister who applied for the idea! Save your "O yeh" moronity for your kid sister to use divorce was too much?" Right you at high school. Snap out of it and get going on those subscriptions. Show the—well—world that we're here!

Once again The Gateway becomes indicative of the student pulse. The fever is abated. The norm is again established. Let's

#### DIRECT ACTION

"Because the revolution interfered with their studies medical students at Valladolid, Spain, asked the instructors to pass them without examinations. The instructors refused, so the students jailed the entire faculty until they became reasonable."-News Item.

If we ever had any allusions about the superiority of Amer-Karenina." Tired of digesting book back? ican college students that article certainly cured us. American reviews, we viewed it last year and collegians may grumble about their instructors (breathes there found it . . . quite . . . good. Then the way from New York to Louisville a man with soul so dead, who about his instructor has never said Mathew's bookstore downtown, free to meet me. !!&\*?:?\*!; 0:;"\*\*??!!&(\*); they may publish severe criticisms of them; they may even go on a strike. But when it comes to locking them up until they become reasonable-well, that's another caccio?") and all for one berry, buck,

And yet is not our provocation as great as that of the students at Valladolid? Just ask anyone who took the English Lit. examination at 8 A. M. Monday! Or just ask anyone who took any exam at 8 o'clock or any other time. Just ask!

Then why don't we follow the noble example of our contemporaries in Spain? Do we lack initiative? Or do we need a revolution to pep us up?

Meanwhile if we can't imitate our Spanish brothers we can at least admire them.

Religion is the best fire insurance according to some people.

Extravagance is spending something you haven't got for some thing you don't want.

"Oh, I don't have to study any tonight; we're going to have lyhoo" which is now pounding rocks -A. T. a review tomorrow!"

According to one professor there is only one thing worse pers and exchanges in every corner than a person chewing gum, and that is two persons chewing gum! | . . . til next week . . . so long.

#### CUBS' CORNER

Practically every student agreed with every other student in the view that exams-stating it in the vernacular-"were the bunk," Maxina Delavan declared examinations to be "a teacher's chance to find out what he hasn't taught-to find out how many failures he has made." Ruth Frish dubbed exams "the Prof's revenge."

Sez Mrs. Pearl Weber, "Examinations? Why, professors have to have THEIR fun, too!" Um. Get the psychology in that?

Mr. C. M. McMillen, journalism instructor, with the true mind of the idealist, remarked, "Mr. Opportunity is knocking at your door to deliver a chance to show your knowledge and worth-in examinations.

Would it not take a Dean of Women, especially a Mrs. Rene E. Stevens, to make the following witty, yet wise, comment? "Why exams? They provide grades and marks by which the examinee proves to a suspicious world that he is educated.'

Dr. Holt's opinion brings us a little closer to the etherial, for he terms the ordeal under discussion "a reckoning of souls."

Nor must we ignore the literary point of view-namely that of Professor Hugh Orr. "Examinations," ventured that gentleman, "are to give the student a final opportunity to tell what he doesn't know. For this reason the two-hour examination period is much preferable to the one-hour."

Having read this summary of the Faculty's views on examinations, any student is assured of making high grades in all tests-providing, of course, that in addition he has well in mind the material on which Fitch-Fitch. he is to be examined.

The middle-man is a thing of the past ages. Slave-trading, horse-swapping, second-hand men are no longer. They have given place to the modern newspaper. Present-day methods demand accuracy, promptness and speed. Advertising in reliable publications has taken the place of old slip-shod, over-the-fence sales.
